

WEIGHMORE™ Shackle Scale

Heavy Duty / In-Motion

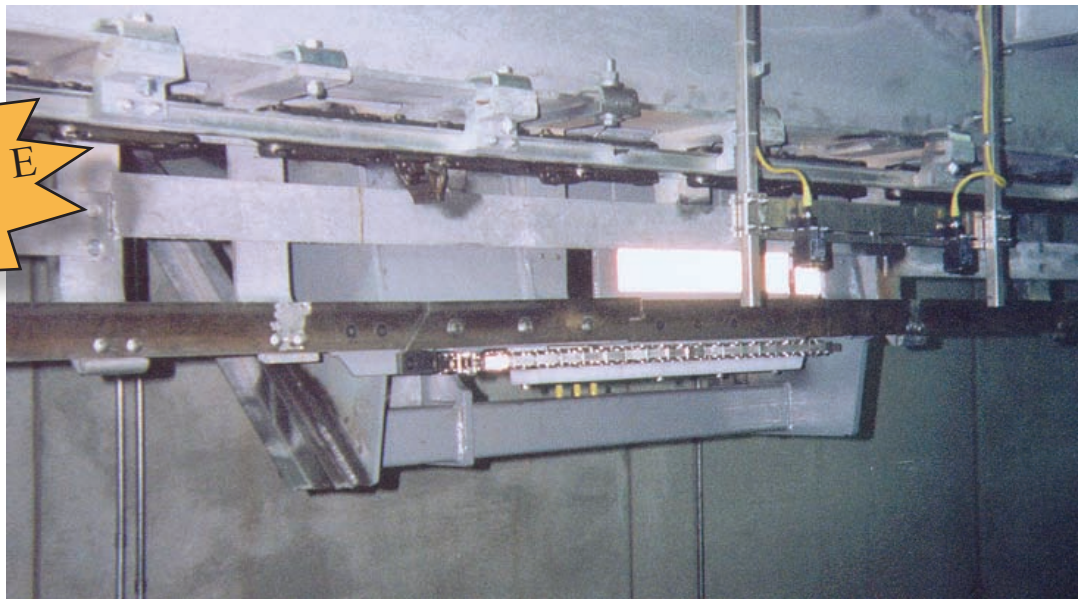

Long recognized as providing the highest accuracy for in-motion weighing in the packing industry, ASTD® presents the *Weighmore™* Heavy Duty In-Motion Shackle Scale.

The Heavy Duty Shackle Scale was specifically designed to weigh whole beef carcasses.

Built on the same patented principles as the *Weighmore™* High Accuracy Monorail, the *Weighmore™* Heavy Duty In-Motion Shackle Scale accurately weighs up to 4,500 lbs capacity, giving you the accurate carcass weights you expect.

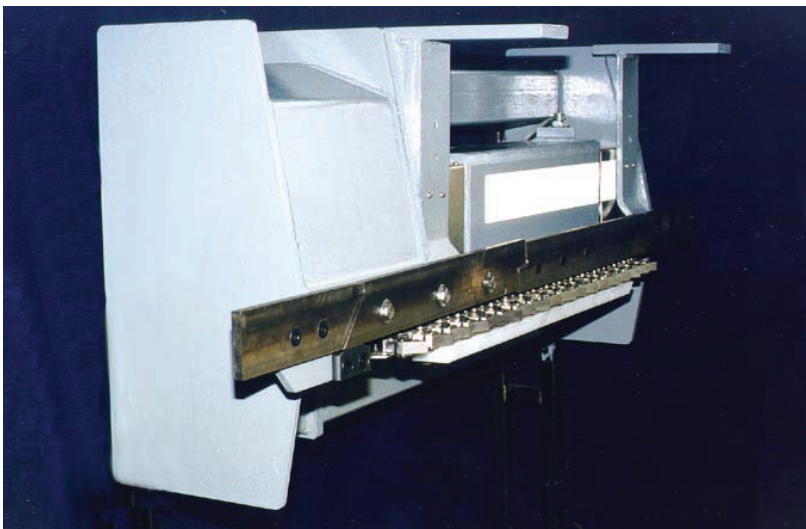

US Patent # RE38,233 E
Canadian: 2229237

CONFIGURABLE-DESIGN

You Want It, We'll Make It.

The patented design is a perfect match for many locations in slaughter plants where individual carcass tracking requires accurate in-motion weighing on the rail.

The *Weighmore™* Heavy Duty Shackle Scale operates accurately while weighing whole carcasses.
